Infinite style for  
contemporary living.

our Motto/  
Design, Meterials  
& Aesthetics . . .

Our dream is to create liveable spaces that not only connect with nature, but the past and the future too. With small touches and curves that fit life... With elegant design, natural materials and stunning aesthetics... Removed from the concept of four walls... To inhale deeply and peacefully without the need for a roof... We exist, we design, we produce.

# bi rim

## conical chair

Birim is a flower that blooms to welcome you with a retro style in a comfortable embrace.

Birim is an upholstered chair with fabric covering.

Birim is a soft, fluid, never pungent design, which accompanies the lines and shapes to unite them in a single circular design. The fabric upholstery embraces Birim and is sewn onto it, covering it entirely from the seat to the base.

Birim is a small domestic throne that matches the table Layer perfectly.

These two objects establish a dialogue starting from their bases. Both pieces sit atop a truncated pyramid with rounded edges to reconcile the concepts of elegance and charm. The base widens gently on the back side as it nears the floor. It becomes almost unnoticeable and provides great stability without interfering with the harmony of the design.

A padded seat provides necessary comfort. Moreover, the accentuated tilt of the backrest and its enveloping shape help people relax without compromising the ideal posture to adopt when interacting with others elegantly around a dining table.

# birim

# orb

## i ndoor chair

Comfortable and soft chair at the dining table...

Profiles with deliberately generous sections create a pure and minimalist architecture that acts as the supporting structure for a soft, welcoming, and enveloping seat. From this contrast comes project Orb. A fusion of Nordic elements, filtered through a typically Italian sweetness and softness, a search for the perfect synthesis between tension and balance.

# orb

outdoor chair

Orb is not only an iconic indoor chair, but also an outdoor chair. The structure is in iron tubular and the seat-back surface in hot-galvanized expanded metal. The armchair exploits modern technologies such as double curvature, which, while maintaining the simplicity of the single tubular for legs and armrests, makes it possible to amplify comfort with the armrest that extends to the body to support the elbow.

Rio barstool brings a new perspective to the iconic shell chair.

Rio stool has a textured, matte surface and soft, inviting touch. Rio is designed with friendly, embracing curves that provide extensive comfort to its user while taking up little space in the room. With different options for the bases and the upholstery allows the customer to express its creativity.

The design balances finely between the refined and the relaxed. Rounded contours emphasize the inviting volume of the full upholstery and are framed elegantly by the solid wood base or by the light metal. A backwards-leaning backrest and cheekily angled legs give edge and attitude, resulting in a design of timeless and nonchalant elegance.

Texture and form that complement each other...

Functionality is a primary importance with River, an exclusive collection of coffee tables in two different sizes and colours. Its functional form creates a difference at home, in offices or public places including hotels and cafes. The harmony of the metal and granite texture and solid legs make River distinctive. An ideal design for those who like both style and functionality.
